Technical Support

If you need any assistance to get your unit functioning properly, please have your product information ready and contact Addonics Technical Support at:

Hours: 8:30 am - 6:00 pm PST

Phone: 408-453-6212

Email: <http://www.addonics.com/support/query/>

Overview & Installation

MSATA Flash Drive

USB 3.0 Cable

Screwdriver and Spare Screw

Step 1. Remove the two screws on the rear panel, then remove the rear panel and the adapter board inside.

Step 2. Insert the media device into the socket first, at an angle. Next, press down gently until it snaps into place with the spring clip.

Step 3. Slide the adapter board back into the Flash Drive housing, then replace the rear panel and secure with two screws. Connect the USB 3.0 cable to the completed Flash Drive, and use with any USB 2.0 or USB 3.0 host. The unit will behave as an external hard disk would.
